## FOREST NOTES

Only one modern sawmill is operated in the territory of Hawaii.

In district 4 of the forest service, with headquarters at Ogden, Utah, lightning caused 36 per cent of this year's fires and campers 27 per cent.

As showing the possibilities for tree growth in regions where irrigation has to be depended upon, it is pointed out that Boise, Idaho, has as many as 94 different kinds of ornamental and shade trees.

The Lourentide company of Quebec, producers of pulp and pulp wood, is reforesting its non-agricultural out-lands. It is also importing reindeer from Newfoundland, to see if they can take the place of dogs in winter woods work.

A small railroad operating an oil-burning locomotive on the Tahoe national forest, California, had a breakdown during the past summer and burned wood instead of oil for one day. On this day fifteen fires started along the right of way. During the preceding year one fire occurred near the railroad and it was not thought that the engine was responsible for that one.

A POEM DEDICATED TO ADVERTISERS

The Four-County Windsorite, published at Windsor, dedicates this verse to the man who runs one advertisement in the paper and then quits advertising because it does not sell all his goods:

One step won't take you very far,  
You have to keep on walking;  
One word won't tell folks who you are,  
You have to keep on talking;  
One inch won't make you very tall,  
You have to keep on growing;  
One little ad. won't do at all,  
You have to keep them going.
